with regard to your request of the approximate extra number of dunams that have been ploughed this summer owing to the Agricultural Loans, I would like to inform you that it is difficult for me to know the number of dunams ploughed, as you have yourself taken the matter of issuing the loans.

How could I know the number of dunams ploughed, when I am ignorant as to when the sum was distributed, what villages have been given the loan and the sum allotted to each, and the persons obtaining the loan.

~~How could~~ Had I assisted you being the representative of the Agricultural Department, as was the case with other S.D.'s, I would be in a position to reply any question relating to that loans.
